- # This FREE Educational College Scholarship and Financial Aid workshop will focus on college-bound high-school sophomores, juniors, and last minute seniors.
- # There are new FAFSA timelines that each family needs to be aware of! We discuss the financial aid eligibility formula and countless other tips families need to understand while their children are in high school, in order to receive the maximum amount of grants, scholarships and financial aid!
- # Learn how most families who thought they could never qualify for financial aid based on their high income or high assets can become eligible for aid. Understand cost effective options to fund college, and how to avoid costly pitfalls without putting a strain on your retirement and the rest of your family finances.

In this workshop, families will learn:

- ✓ How to navigate the confusion caused by the recent FAFSA deadline changes
  - ✓ How to send their child to an expensive private college for less than a state school
  - ✓ How to pick the right schools that will give your family the best financial aid packages
  - ✓ How the U. S. Department of Education calculates each family's Expected Family Contribution (EFC) and which assets are taken into consideration
  - ✓ How to create a plan to pay for college in a failing economy without relying on 529 plans, expensive private student loans or raiding retirement accounts
  - ✓ How to lower "out-of-pocket" costs and get the maximum amount of financial aid from each school
  - ✓ How to increase college-related tax deductions and tax credits
  - ✓ How to earn FREE tuition
- 

*Here's what parents like you are saying about our Free College Funding Workshop:*

*"Guessing I'll gain thousands of dollars of financial aid just from what I learned in the first 30 minutes."*
